Woodbury University is pleased to have Petra Blaisse and Aura Luz Melis of Inside Outside to the San Diego Campus for a lecture on Wednesday September 6th at 6:30pm. They will present the international work of Inside Outside.

Inside Outside's main interest lies in the creations of dynamic, site specific environments, both inside and outside with, preferably, a link between the two. Inter-disciplinary collaboration and clear communication is key.

Developing in new directions, they contribute to projects to enforce and (constructively!) challenge the architecture and design directions within the given program and context, together with the teams each time they start a new project.
