

Agency for Civic Engagement

Request for Collaboration

The Agency for Civic Engagement has a long-standing public interest program through Woodbury University. During semester and summer term, student teams, led by experienced faculty, conceptualize and realize a project for community clients. During the intensive studio, students address client parameters, work across disciplines, respond to multiple contexts, and learn new ways to collaborate with local communities. The Agency for Civic Engagement has a number of partnership and donor opportunities to support student learning and success. If you're interested in working with ACE, please fill out the following Request for Collaboration, or you can reach out to Director Jeanine Centuori, FAIA.
